

# Meet Your Radiation Oncologist

## Steven Damore, MD

*We provide patients the most up to date treatment options. This requires a commitment to staying current with published data and implementing new technology and innovations to continually make cancer treatment safer and more effective. We want patients to feel confident they are receiving the highest quality care.*

### Why I Chose Health Care

I became a Radiation Oncologist to take on the challenge of cancer and to make a difference in patients' lives by delivering the highest-quality treatment with respect, care, and compassion. The best part of being a physician is interacting with patients and their families and helping them as they go through their journey.

### Residency

University of California, Irvine, CA, Radiation Oncology Residency Program

### Internship

St. Mary's Medical Center, San Francisco, CA

### MD

Washington University School of Medicine, St. Louis, MO

### Bachelor's Degree

Biology, UCLA, Los Angeles, CA
