

Meet Your OB/GYN

Blair Mitchell-Handley, MD

Why I Chose Health Care

Being interested in science since early in my education, learning about the application of science in medicine was very exciting. After many volunteering experiences in healthcare, my desire for advocating for and helping other people achieve their healthcare goals was born.

Residency

Obstetrics and Gynecology, The University of Chicago, Chicago, IL

MD

Cleveland Clinic Lerner College of Medicine of Case Western Reserve University School of Medicine, Cleveland, OH

Bachelor's Degree

Biology with a minor in Chemistry, Magna Cum Laude, Valparaiso University, Valparaiso, IN

Professional Memberships

ACOG

Department of OB/GYN

In the Department of OB/GYN, Dr. Mitchell-Handley specializes in high-risk pregnancy care, contraception management, and abnormal uterine bleeding. Additionally, she provides her patients with routine gynecological services including physical exams, pap smears, and preventative health screenings.

Hospital Affiliation

Carle Foundation Hospital

I love attending NBA games with my husband and shopping with my daughter. I also love realty tv and have watched the Harry Potter series multiple times (stopping to watch every time it's on tv).

I grew up in a family full of women so my compassion for and interest in the concerns of women comes naturally. Every topic within women's health and OB/GYN is interesting and exciting.
