

Meet Your Audiologist

Julie Kenny, AUD

I strive to help my patients understand how important hearing is to their quality of life by finding solutions for their hearing difficulties. I provide information for hearing aids and other devices if needed and discuss how the patient can benefit from these. I want my patients to feel that their concerns and/or questions are addressed and that they can leave with the understanding that I have their best interests in mind.

Why I Chose Health Care

"I was motivated to become an audiologist when I was presented with an opportunity to observe a provider in this field. From there, I knew I would enjoy working in Audiology because I saw the impact on quality of life for patients with balancing and hearing issues. I became passionate about helping patients understand how to work with their hearing loss by providing solutions to improve their overall ability to hear."

AuD

University of Illinois at Champaign-Urbana

BS

University of Illinois at Champaign-Urbana,
Speech and Hearing Science

Parkland College, Champaign, IL

Certification

Licensed Audiologist in the State of Illinois

Professional Memberships

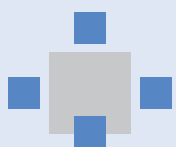

American Academy of Audiology

American Speech-Hearing-Language Association

Department of ENT/Audiology

Christie Clinic audiologists test and treat patients of all ages for hearing and balance disorders through diagnostic hearing evaluations, vestibular evaluations for patients complaining of dizziness, hearing aid evaluations including recommendations about candidacy for hearing aid use and assistive listening devices to meet a variety of listening challenges including custom ear molds, swimming plugs and hearing protection.

Outside of work, I enjoy spending time with my husband and children, doing puzzles, playing games, traveling, and cooking.

CHRISTIE CLINIC

We listen. We care.
